About Us

Electing Women [CITY] is a giving community that supports Democratic women running for US Senate, Governor, Vice President, and President. We host intimate and engaging in-person events with candidates. Our goal is to inspire intentional, informed giving and to close the political gender giving gap as a pathway to increasing women's political leadership.

Women leaders produce better outcomes across the spectrum because they bring their life experiences to policy-making. But progress has been too slow: The US is currently ranked 79th in the world in the percentage of women in office. There are currently only five women of color in the Senate, and there has never been a Black women governor. We must do better.

Our Unique Model

Some women's political organizations recruit. Others train. We fund. But we do it differently, and our unique value is building local communities of like-minded donors. Electing Women [CITY] events are small gatherings that allow candidates—incumbents and non-incumbents—to engage in substantive, lively conversation about policy and politics with communities of women donors. Prior to each event, the EW [CITY] team briefs members on the background of the candidate, overview of the race, and other relevant details.

By becoming a member, you join a powerful community of donors leveraging our power to elect more women. Your annual PAC membership contribution allows us to make additional donations to candidates, maintain our operations, and continue to expand our network. Our greatest asset is our community itself.
